Your Invitation to the "Sustainable Energy & Hydrogen Power using Hydrogen Fuel Cells" Seminar

The "Future of Power" is moving rapidly towards renewable, clean & sustainable energy solutions that are efficient and cost effective. There are more innovative solutions available than ever before to provide backup and constant power both on & off grid. This Seminar will present the best products now available in Australia, all of which emanate from Canada.

CoverTel Power Pty Ltd is pleased to invite you to an informative seminar presenting the latest news & innovation for sustainable, hybrid back-up and constant power supply using:

1. Hydrogen Power – introducing guest speakers from **Hydrogenics**. Hydrogenics (NASDAQ:HYGS) is a leading global developer & manufacturer of hydrogen generation and fuel cell products based on water electrolysis and proton exchange membrane technology. Hydrogenics is currently working on many projects world-wide and they will be sharing some of their experiences.

Hydrogenics Hydrogen Fuel Cell Power Module

2. Solar Power – Introducing guest speakers from **Canadian Solar**. A globally respected manufacturer of solar power modules & solar power systems. NASDAQ:CSIQ. One the world's largest suppliers of Solar equipment and sustainable solutions.
3. Wind Power - This is the launch of the **Windular Research and Technologies** product providing Wind & Solar power using existing infrastructure. It is possible to develop power for an average of 17 hours per day & night, using combined wind & solar solutions that track the movement of the wind & sun using intelligent power electronics. Ongoing operational costs - minimal.

Combined wind and solar for 12kw of power

AGENDA

8.15 am	Registration. Coffee and tea provided
8.30 am	Introduction and CoverTel Power overview
8.40 am	Introduction - Canada Open for Business – Canadian Trade Commissioner Service
8.55 am	The Hydrogen Economy. Hydrogenics - Hydrogen Fuel Cells and Electrolysers
9.45 am	Solar Power for your projects – Canadian Solar
10.20 am	Break for coffee / tea
10.40 am	Wind Power – Australian Product Launch - Windular Research and Technologies
11.20 am	Latest News for the Australian Market – Enviro Group
12.10-12.20 pm	Final Questions and Conclusion

Venue: Karstens Seminar Room - 123 Queen Street, Melbourne

Date: Tuesday October 14th 2014 at 8.15am to 12.30pm

RSVP: Mario Cacchione at mario@covertel.com.au or on 0400940511 by Wednesday October 9th to confirm catering.

Numbers are limited so please book to reserve your place!
